State law requires Boards of Health have two hours of continuing education per year. Mr. Quade asked the Board to advise whether they would like it done all at one time or break the training down into several sessions.

c. Accreditation Update

Mr. Quade reported that all our documents were uploaded to the Public Health Accreditation Board (PHAB) website on January 19, 2020. He expects to hear about the completeness review shortly. Our site visit will be in a few months.

The site visit will be over two days and will include a session to meet with Board members.

d. Administrative Hearing Process Change

Mr. Quade, Mr. Sage and Mrs. Wendell have been working on a change for the Administrative Hearing process. Currently, when cases are scheduled with the Board, approximately 90% of the people do not attend the hearing. In the process being proposed, Administrative Hearings would be heard by the Health Commissioner and
Environmental Health Director. If the resident attends, negotiations to get them to comply with the regulation. If they comply, no further action would be needed. If they did not comply, they would be brought before the Board for action.

Any resident that does not attend the hearing with the Health Commissioner and Environmental Health Director would be referred directly to the prosecutor’s office for legal action.

This process will help with the backlog of property transfers. This process was put on hiatus by former management. The goal is to get caught up without causing the Board to have to sit through hearings where the property owner does not show to the hearing.

This process may continue after we have an O/M program in place. It will be reviewed as the program is implemented.

The Board agreed to the change in the Administrative Hearing process. Mr. Quade stated he would present a report of how many were seen and what the outcome was. He also invited the Board member to attend to review the process.
